To obtain or confirm TSA status, visit www.agcelerate.com.

WB4483 is a Hard Red Winter Wheat variety with very good yield potential and a solid stem for improved Wheat Stem Sawfly management. This medium-height variety carries very good winter hardiness, standability, test weight, and milling and baking quality.

- Solid Stem for Improved Wheat Stem Sawfly Management
- Good Yellow (Stripe) Rust Tolerance
- Very Good Winter Hardiness
- Very Good Yield Potential
- Single-Use License Variety

OPTIMAL SEEDING RATE

Seed size and density impacts how many seeds are in a pound. To enhance your results, you need to know how many seeds to plant per acre and how many seeds are in a pound. An accurate seed count can make all the difference. Learn more at WestBred.com

Ratings are Internal Bayer Crop Science Wheat Breeding Research Data.

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's yields.
